- SDLC (Basic Knowledge)
- Problem Solving & Debugging
- Code Organization & Testing (Basic)
- Attention to Detail

Tools

- Visual Studio Code
- Git
- GitHub
- Vite
- npm
- Deployment (Basic)
- Microsoft Word
- Microsoft PowerPoint

Soft Skills

- Teamwork
- Communication
- Time Management
- Quick Learner

👤 PROFILE

Software Engineering graduate with a strong foundation in frontend development using HTML5, CSS3, JavaScript (ES6), Bootstrap and React.js. Passionate about building responsive, user-friendly web applications and continuously improving technical skills. Seeking an entry-level Frontend Developer position to apply my skills, contribute to real-world projects, and grow professionally.

📁 PROJECTS

Social Media App 🔗

July 2026 – July 2026

Built a modern React Social Media App using React.js with Context API, useReducer, React Toastify, React Icons, and Local Storage. The project focuses on responsive UI, clean state management, and an interactive user experience.

Code: <https://github.com/KG-SE/social-media-app/> 🔗

React Todo App 🔗

June 2026 – June 2026

Built a Todo application using React.JS with Context API and useReducer for efficient state management. Implemented component-based architecture and responsive UI using Bootstrap.

Code: <https://github.com/KG-SE/react-todo-app> 🔗
